VACCINE(S) REQUESTED (CIRCLE) PREFERRED INJECTION SITE										
COVID Influenza (flu) Pneumococcal (pneumonia) Herpes zoster (Shingles) Tetanus/diphtheria/pertussis Other: Left arm Right arm										

Are you feeling sick today (fever, cough, diarrhea, vomiting)? If yes, list:         Do you have allergies to latex, medications, food, eggs, or vaccines (ex// eggs, bovine protein, gelatin, gentamicin, polymyxin, neomycin, phenol, yeast or thimerosal (cleaning products or contact lens solution)? If yes, list:         Have you ever felt faint or dizzy after receiving a vaccine?         Have you ever had a reaction after receiving a vaccine?         Do you have a long term health problem with heart, lung, liver or kidney disease; abetes; asthma; neurologic or neuromuscular disease; anemia or other blood isorders or take a blood thinner?         Do you have a weakened immune system because of HIV/AIDS or another disease teroids, or cancer treatment with radiation or drugs?         Have you ever had Guillain-Barre Syndrome, a seizure, brain or nerve problem?         Women: Are you or could you become pregnant during the next 3 months?         I agree to stay in the vaccine area 15 minutes to monitor for adverse reactions.         or COVID vaccines only:         Do you have a health condition or undergoing treatment that makes you moderately r severely immunocompromised (including but not limited to cancer treatment, HIV, receipt of gan transplant, immunosuppressive therapy or high dose corticosteroids, CAR-T-cell therapy, amatopoietic cell transplant (HCT) or moderate/severe primary immunodeficiency         Have you received a COVID-19 vaccine before or during hematopoietic cell ansplant (HCT) or cAR-T-cell therapies?

ansplant (HCT) or CAR-T-cell therapies? Have you had an allergic reaction to a dose or component of COVID-19 vaccine?		
Have you had an allergic reaction to a dose or component of COVID-19 vaccine?		
Check all that apply		
Check all that apply:		
I History of myocarditis or pericarditis		
History of Multisystem Inflammatory System (MIS-C MIS-A)		
History of an immune-mediated syndrome defined by thrombosis and		
rombocytopenia, such as heparin-induced thrombocytopenia (HIT)		
I History of thrombosis with thrombocytopenia syndrome (TTS)		
Have you received passive antibody therapy (monoclonal antibodies or		
onvalescent serum) as a treatment for COVID-19 within the past 90 days?		
Have you ever had an allergic reaction to polyethylene glycol (PEG), polysorbate or		
previous COVID-19 vaccine dose?		
Have you received dermal fillers?		
Previous doses of COVID-19 vaccines:		
	:	
ate: Manufacturer (circle): Moderna Pfizer Janssen Other	:	
ate: Manufacturer (circle): Moderna Pfizer Janssen Other	:	
ate: Manufacturer (circle): Moderna Pfizer Janssen Other	:	
I understand the benefits and risks described in the Emergency Use Authorization (E		ct
heet, provided with this consent form.		
or LIVE vaccines only:		
Do you consider yourself to be, or have you ever been told by a physician that you		
re immunosuppressed?		
Are you currently on home infusions or weekly injections (such as Remicade,		
umira, Enbrel, Cimzia, Simponi, Simpona Aria, Xeljanz, Orencia, Arava, Acterma,		
ytoxan, Rituxan, adalimumab, infliximab, or etanercept), high dose methotrexate,		
zathioprine or mercaptopurine, antivirals, anticancer drugs, or radiation treatments?		
Have you received any vaccines or skin test in the past 4 weeks? List: Have you received a transfusion of blood or blood products or been given a		<u> </u>
edicine called immune (gamma) globulin in the past year?		
In the past 3 months, have you or anyone in your household taken cortisone,		
rednisone, other steroids, high-dose methotrexate, azathioprine, 6-mercaptopurine, ntivirals, anticancer drugs or have you had any radiation treatments?		

## ADVERSE REACTIONS

ne, like any medicine, is capable of causing serious problems, such as allergic reactions. The risk of any vaccine causing serious harm, or is extremely small. Local symptoms may include: slight tenderness, s, itching or swelling at the site of the injection. Systemic symptoms may fever, malaise and muscle pain. Other systemic symptoms may occur ently. These reactions usually begin 6 to 12 hours after immunization and sist for a few days. Immediate presumable allergic reactions such as ingioedema, allergic asthma or systemic anaphylaxis occur rarely after zations. These reactions may result from hypersensitivity reactions in with severe egg allergy, and such people should not be given certain es that contain eggs. People with documented immunoglobulin E (IgE)ed hypersensitivities to eggs or other vaccine components, including sal, may also be at increased risk of reactions from immunizations. In the a severe reaction such as a high fever, behavior changes or flu-like ms that occur after vaccination, see a doctor right away. Signs of an reaction can include difficulty breathing, hoarseness or wheezing, hives, ss, weakness, a fast heartbeat or dizziness within a few minutes to a few after the shot.

## CONSENT

read the adverse reactions associated with the administration of es. A copy of the vaccine information sheet has been provided to me and of the vaccine manufacturer's drug information sheet is available upon t. Furthermore, I have also had an opportunity to ask questions about nmunizations. I believe the benefits outweigh the risks and I voluntarily e full responsibility for any reactions that may result from either my receipt mmunization(s) or the receipt of the immunization(s) by the person named for whom I am the legal guardian ("WARD"). My medical record may be with my physician or other healthcare provider and the medical record of d may be shared with his/her physician or other healthcare provider. I am ing that the immunization(s) be given to me or my directors, contractors, and employees (collectively "Released Parties"), from any and all claims out of, in connection with or in any way related to my receipt and the by my injury, death or damage suffered or sustained by any person at e in connection with or as a result of this vaccine program or the stration of the vaccines described above. Hawthorne Pharmacy will use close your personal and health information or personal and health ation of your Ward, to treat you or your Ward, to receive payment of the provide, and for other healthcare operations. Healthcare operations Ily include those activities we perform to improve the quality of care. We repared a detailed NOTICE OF PRIVACY PRACTICES to help you better tand our policies in regard to you and your Ward's personal health ation. I acknowledge that I have received a copy of the Notice of Privacy es '
